Dear Charles:

Enclosed is a second draft of the application for this case. Please review the enclosed application and drawings and provide your comments and those of the inventors at your earliest convenience. In particular, please have Murphy Sprinkel comment on his proposed changes to FIGS. 4 and 7. If each blade does not taper to a point at the mouth end (14 in FIG. 1), then a line down the center of each blade in FIGS. 4 and 7 would be improper. Proposed drawings with two parallel lines representing this thickness at the mouth end of each blade are enclosed.

Very truly yours,

Jeffrey H. Ingerman
